? PROBLEM

01

TOO MANY LINKS!

In SRM while everything is pretty technologically advanced and simple, all links and websites are not available at ONE place. **Running north and south for every task is not fun.**

02

WHAT A MESS!

Be it the Mess Timings, Mess Menu or the Crowd; we are always unsure of what to do and when. **When did getting food get this tiresome?**

03

ABUNDANCE OF ORDERS!

Given the amazing restaurant of ours, the list of orders is never short. **The phone is always busy and ringing.**

TEAM SPECTRE

01

GET 'EM ALL AT ONE STOP

Evarsity, Out and Leave passes, Complaints and Maintenance- all the needs one can conjure, we have the solution!

02

A SORTED MESS

What if I tell you that we no longer have to worry about the horde of people around the counters or what is in mess menu today?

03

NO MORE HOLD-UPS

No more waiting for someone to hear our orders or stand by and wait for someone to pick the call to make our order.

TEAM SPECTRE

We started with one goal in mind- **Digitalizing SRM** and **SRM Aikyam** was the born.

We know first-hand how an app like this can make a Hostelers life exponentially easier.
